Subject: IDL with C++

Hi,

I have just started to learn IDL (yesterday), but Im very experienced in MATLAB, so Im starting to see many similarities that make me go through much faster. I will probably have to implement a GUI in IDL including many mathematical operations on image processing (Im working in the Canarian Astrophysics Institute) and I will also have to use C++ code to do many routines like accessing to data from network, database programming, assembly coding possibly and so on.

I know there is at least one good book about IDL + C 'Calling C from IDL' (Ronn Klings) which Im seriously thinking to purchase, but I would also like to get some help from any of you about this combination between IDL and C++. Does any of you have some small routines where you combine both? with that, I will have a lot of information to figure out how to deal with my problem. Of course, later many other problems will arise, but as starting point it would be very useful for me.

Thanks a lot in advance,

Juan Luis Medina

Where can I buy the book. Ronn Klings site doesnt work anymore. Its not available on Amazon. If anyone knows any site where it can be purchases pls

let us know.

but I would

I typically sell the book on my web page, but I
am out of stock and my last order with Ronn is
some two weeks overdue. Hope he is vacationing
in Tahiti or something. :-(

Cheers,

David

Did you get the URL wrong? I just connected w/o problem.

http://www.kilvarock.com/books/booksforsale.htm

Thats the URL I used to place the order. No luck. My card has not been
billed yet. No emails either. I need the book in a hurry. If anyone should
know of any place I can buy it from pls let me know.

According to USPS tracking, my order from Ronn is scheduled
to be delivered later this afternoon. So you can order the
book from my web page:

  https://www.frii.com/~davidf/book_order_form.html

Use the Comment form (or the Upgrade Shipping button) to
tell me how fast you want it shipped.

Cheers,

David
