Hi,

I need to create a vector of complex arrays. For example:

If I want to store and to get 5 complex arrays like

```
x = complexarr(10,10)
```

```
scale_vector = replicate(x,5) ; it does not work but it is for explanation
```

so I can get one of the arrays like

```
x2 = scale_vector[2]
```

Some idea?

Thanks

Juan
