Hi,

Does anyone know of a "Reference Card" for IDLWave? I'm talking about a single (doubled-sided) sheet with all the handiest keypresses, customisations, etc. Something similar to these ones for emacs:

<http://www.refcards.com/about/emacs.html>

And if not (and if no one else offers) I'll bravely volunteer to organise an effort to create one, since I find the emacs one so useful.

Cheers,

Justin
