Dear Thomas

please have a look on map_set
to setup and plot the map.,

Afterwards you could use plot to draw the line at this coordinates.

If you are intereseted in examples from our plot library you see some here

http://www.fz-juelich.de/icg/icg-i/idl_icglib/idl_source/idl_html/idl_work_idl_work.examples.category.htm

The library itselfs you'll find here

http://www.fz-juelich.de/icg/icg-i/idl_icglib/idl_lib_intro.html

regards
Reimar

I tried to connect to the given www address but it failed. Is this the
correct www address?

Thomas

Thomas

the address is right.

May be there is some trouble between your ISP and this server.

Some others could reach the www address yesterday from different locations.

Could you try again please. If you can't reach it please inform me.

Reimar
