Subject: dates transformation
Posted by Thomas Ohde on Tue, 15 Jun 2004 05:56:50 GMT

Hi,

I have given dates like 38141.497920 and I can transform this with Excel
into: 03.06.2004 11:57. I found in the help that this is the 1900 date
format.

How can I transform these dates in both direction with IDL? Is there any
function in IDL?

Thanks a lot,
Thomas
