Try !C, but you have to enable text formatting:

```
text=obj_new('idlgtext', $  
  'This is some text!Con two lines', $  
  /Enable_Formatting)  
XObjView, text
```

Cheers,

David

an update :

neither does this work:

```
title = string(event) + string(13B) + string(10B) + string(text)
```

...

Oh , I see. I'll try that.

Thanks, David
