Lixiaoyao,

Please slow down. Before you post more questions you should read this:

"How To Ask Questions The Smart Way"

<http://www.catb.org/~esr/faqs/smart-questions.html>

This is not for me or the other group members. This is for you. It would take less time to add you to a spam filter or replace you with a shell script than it does to write this email. You are not having much luck getting your questions answered in this group or in others [1]. You will have much more success with your questions if you follow the advice given to you in this group previously and the above link.

Regards,

-k.
