I am sorry to post this message here in the newsgroup. I tried to contact "empress@maz.sma.ch (M-Press Datenbank)" and asked for the change of my e-mail address, however, nothing has happened. The newsletter is continuously being delivered to my old-email account. In hope that the person in charge of this group may see this message, could he/she kindly change my e-mail address from the old one "tan@sa.rl.ac.uk" to the new one "Jun.Tan@rutherford.ac.uk".

Thanks for your help.
