If you are referring to RSI's Interactive Data Language, yes.

Check out:

<http://rsinc.com/training/schedule.asp>

You can also check out the books on the following websites:

<http://dfanning.com/documents/books.html>

http://dfanning.com/documents/book_recommendations.html

Cheers,

bob

If there is a group of you and you are interested in
completely customizable on-site courses, I've been known
to teach a course or two from time to time. :-)

And RSI has a completely schedule of courses.

Cheers,

David

P.S. I don't guarantee my prices are lower, but, uh,
let's just say there isn't much overhead around here. :-)
