The width of your output line is set to the default 80 characters. Change it with the WIDTH keyword to the OPENW command.

Cheers,

David

Thank You, David.

I think I should be looking up the keywords for commands.. Thats the key..What do you think?

It's always a good idea. I do it almost every time  
before I post on the newsgroup. No matter how sure  
I am of the answer. :-)

Cheers,

David
