I'm still learning a lot about IDL

Right now, I'm trying to create a program whith Runge -Kutta
algoritms.Anybody have something about this subject (Runge -Kutta)

Thancks for your help

Anto

Well, you might want to start by reading Chapter 16
of the "numerical recipes in C" book, you can even
find that online for free at:

<http://www.library.cornell.edu/nr/cbookcpdf.html>

Of course C is not IDL, but you should be able
to learn how the algorithm works there, if that's
your goal.

Ciao,
Paolo
