Lockheed-Martin Information Technology, a contractor to the US EPA, has an opening for an experienced IDL programmer in the Environmental Modeling and Visualization Laboratory located in Research Triangle Park, NC. Duties will include maintaining a custom GUI driven scientific visualization application and developing a web-based data portal using ION-Java. This job requires a Bachelors degree or higher in a scientific or programming related discipline, with 7+ years of professional experience. The applicant will be expected to work in small groups with a minimum of supervision.

The official job posting can be found at <http://www.lockheedmartin.com> by clicking "Careers" -> "Career Opportunities" -> "Search for a Job" and entering requisition number 630109 at the bottom of the page.

If you are interested in applying, please send a resume and letter of interest to Dr. Matthew Freeman, at idl_job_lockheed@yahoo.com. Or if you prefer, you can submit your resume directly through the Lockheed-Martin website.

Thanks,

-matt
