Hi comp.lang.idl-pvwave
I have this need to place coordinates, like RA, DEC (astronomy images) at
regular intervals in the x and y axis. My problem is basically this:
say you have plot,findgen(10), I want to put major tick marks at user
define intervals, say for e.g, at 1.125, 2,125, 3.125,...etc. How do I do
this? Appreciate any help. Thanks
Alvin
