Hi group,

trying to find some information on the net about iTools I found this beautiful link:

http://www.google.com/url?sa=t&ct=res&cd=3&url=http%3A//www.rsinc.com/services/techtip.asp%3Fttid%3D3528%26wid%3D2861072%26s%3D1497&ei=BHoarI7ZPI7iiALs5fnXAw&sig2=ofQoPF4gqPb9_SDkfVINYA

Why is it interesting??

I suppose because you are semi-login as:

>> Hello Andrzej Pindor

My name is not Andrzej Pindor, but can be logged as him for a moments. I suppose it is not a serious bug, because a bad boy needs to be the cookies of Andrzej with some kind of information to login as him 100%.

Bye.
