No. :-)

Cheers,

David

P.S. Of course, you can change it for ALL windows, but I don't think this is probably what you had in mind.

Hi David,

I see you are still hanging around these parts :) Thanks for the info. When you say "ALL windows", do you mean EVERY window on the computer (including non-IDL applications), or just every IDL window ?

Oh, hi, Dan! Long time no see. :-)

All windows on the computer, unfortunately. :-(

Did you build that 3D sculptor software in IDL!? Wow.

Cheers,

David

P.S. For those who don't know, Dan is an artist as well as a hell of a good IDL programmer. Many of you are carrying around some of his artwork in your change pocket!
