Hello,

I am trying to use the extrema function written by Mati Meron from
<http://mimas.astro.washington.edu/deutsch-bin/getpro/library 23.html?EXTREMA>.

However, when I compile it, there is a syntax error at this line.

```
tre = Default(tre,0.,/dtype) > 0
```

Do you have any idea what I did wrong?

Thanks for your help!

Jon
