
Subject: iPlot export PostScript error with logarithmic X axis

Hi all,

I am creating a plot in iPlot and want to export it to EPS. It works fine if the X axis is not logarithmic. If I make the X axis logarithmic (which I need), the EPS cannot be read by either Ghostview or Illustrator.

The .isv file and the two EPS files (with and without log X axis) are at

<http://xray1.physics.sunysb.edu/~hornberg/scratch/rpsd.isv>
<http://xray1.physics.sunysb.edu/~hornberg/scratch/rpsd.eps>
http://xray1.physics.sunysb.edu/~hornberg/scratch/rpsd_noxlog.eps

Any insight? Let me know if you need more info.

Thanks for your help,
Benjamin
