Hi Mike,

I didn't get it to work - I see four black boxes, but only get this message :(

cw_dual_slider: invalid click type []
cw_dual_slider: invalid click type []
cw_dual_slider: invalid click type []

regards,
Greg

Yeah, kinda what I got, too, on Windows with IDL 6.2.

Cheers,

David

I have the same problem if I run it on windows

If I toss a device, retain=2, decomposed=0 into my startup file (it was already there on my linux systems) then it works, although the colors are not quite right. So I'll add "use widget_info(/system_colors)" to the list of things to do.

Mike
