The UNIDATA Program

<http://www.unidata.ucar.edu/>

developers of the netCDF library

<http://www.unidata.ucar.edu/software/netcdf/>

makes available a small set of example programs

<http://www.unidata.ucar.edu/software/netcdf/examples/programs/>

in multiple languages as part of their netCDF tutorial.

I have written IDL versions of each of the six sample programs. You can download the programs and example netCDF files here

http://idl.tamu.edu/downloads/netcdf_examples.zip

(a 16 kB zip file).

I have sent the examples to UNIDATA, but it may be some time before they are available from the UNIDATA web site.
