Hello there,

I'm not familiar with IDL.

I would like to know if it is possible to make executable files with IDL. I've read some old topics saying "No, it's not possible".

But, with the newest IDL versions, can it be possible?

Thanks,

Hervé

The short answer is still "No", but here are more details.

[http://www.dfanning.com/tips/idl\\_executable.html](http://www.dfanning.com/tips/idl_executable.html)

Cheers,

David
