
Subject: How do I add an array to the end of an existing array?

I want to do something which I'm sure is very simple. I have an array
such as:

```
0 0
0 0
0 0
```

and want to add a similar array to get

```
0 0
0 0
0 0
0 0
0 0
0 0
```

so that I preserve the number of dimensions. Eg go from A=(2,3) to
A=(2,6)

Cheers,
