Hi!

I tried the tiff_read and read_gif. I have no problems. I did the following.

```
IDL> read_gif,'path/name.gif',bild,r,g,b (r,g,b are the colortables)
```

```
IDL> tv,bild  
IDL> tvlct,r,g,b
```

And for tiff-images:

```
IDL> bild=tiff_read('path/name.tif',r,g,b)  
IDL> tv,bild  
IDL> tvlct,r,g,b
```

I hope this helps you
