Subject: IDL 7.0 .... any new functions?

Hi all,

Moving to v7.0 is not the thing to do today (just finishing a project +
any update = lot of problems that will make you weeks late). However I
have read the little information that is available... but I haven't
found anything about new functions, bug fixes etc... so is v7.0
"simply" a new interface, or is there actually some new things under the
hood???

Jean
