CTRL+F6, CTRL+SHIFT+F6 for previous, it's not exactly the same as
Firefox...
Try CTRL+SHIFT+L for list (and CTRL+SHIFT+L to customize them)

Ctrl-PgUp and Ctrl-PgDn also cycle tabs without a pop-up window.

Ah, I like this better than "Next editor" and "Previous Editor". Do you know what these actions are called in the Key bindings editor page? I want to change their bindings to another key.

Does anyone know of a simple way to print the list this generates out?
I've tried a copy and paste but no luck, and I'm reluctant to go as far
as 'print screen' or my notebook...

cheers,

Ben
