Hi,

This is from memory, but I think you want TABLE_SELECT ala...

selectionIndices = WIDGET_INFO(widgetID, /TABLE_SELECT)

Ben

thanks for your reply
i use your source code ...but it's a bit strange output...there is no
selection indexes :(

sorry it's ok
just little strange output

thanks

Hi,

Perhaps you should show what you are doing (simplified) and what
results you are getting.

Ben
