Subject: Anyone link GSL into IDL?

In the realm of crazy TLAs has anyone ever linked the GNU scientific
library (GSL) into IDL. This is probably a case where I need to use a
DLM. Before I expend a bunch of effort reinventing the wheel I just
want to make sure that others have not done this.

Cheers,

Brian

You could perhaps use Python with pyIDL and PyGSL?

It's not something I have attempted.

Russell.

Can you use GDL? It already uses gsl, although you would still
have to implement bindings for new functions.
