Folks,

As part of my on-going (and mostly unsuccessful) attempt to get a life outside of IDL, I've decided to play less tennis this summer and spend more time backpacking. To that end, I've joined a local organization that supplies volunteer wilderness rangers for the Forest Service.

Tonight was the kick-off meeting and a bunch of us newbies got together to start our training. Naturally, we broke up into small groups that were given wildlife names. I was assigned--so help me, God--to the "Coyotes".

Sometimes it's just obvious to you that you are on the right path. :-)

Cheers,

David
