```

From the help file:
LIMIT
Set this keyword to a four-element vector of the form
[Latmin, Lonmin, Latmax, Lonmax]

so try to put -40 first, and -25 in the 3rd position.

Thank you for finding this error for me. I did not notice that. But It
still does not work.
I also tried to set the key word color=black in both of the command
here...

;(
