1) google it... "IDL pie" returns several answers
2) look in this newsgroup archives... we had the same question 3 weeks ago... and here is the link:
http://groups.google.com/group/comp.lang.idl-pvwave/browse_thread/thread/10b46b2fddff620e?fwc=2

with the function located (temporarily) at
<http://www.ucalgary.ca/~jghasban/pie.pro>

Jean
