Did you try Googling "textoidl"? That seems to produce useful results. (unfortunately the original author's site at Minnesota does not seem to be working, but there are many other mirrors)

With TEXTOIDL you can indeed express basic formulae in TeX/LaTeX syntax.

Thank you very much.=)

Cheers

Is it really too much to ask people to Google first? :-)

By the way, your link is not complete. There are other modules in the TEXTOIDL package.
