Here is an article that shows you how to do this:

[http://www.dfanning.com/code\\_tips/transpoly.html](http://www.dfanning.com/code_tips/transpoly.html)

Cheers,

David

Thank you very much!  
Your website is very useful.  
I have save it to my favorite. ^\_^

or, alternatively, you could just redraw your lines again  
with `oplot` ;-)

Ciao,  
Paolo

I was wondering how many more articles you were going  
to have to read before you did that. ;-)

Cheers,

David

By the way, it seems that the method in Coyote's website cannot be  
used to create a PostScript file.  
How do I create a transparent polygon on the PostScript device.

Du
