Hi guys,

the FL homepage at <http://web.interware.hu/fl> will disappear in the near future. The freshmeat account

<http://freshmeat.net/projects/fl>

will always show you the actual homepage. Please update your bookmarks.

Also, you can send me emails about FL through my new gmail account:

[FawltLanguage@gmail...](mailto:FawltLanguage@gmail.com)

regards,
lajos
