Hi to All

I just install ENVI 4.6 for testing. It is working perfect except when i try to access menu "help" option "start envi help" nothing is happens (envi help doesn' t starts) I have windows vista and internet explorer .

Any idea how to solve this problem??

Thank you all in advance for your answers

Hi to all,

I have the same problem. Does anyone know how to solve it? This is really nasty...

Thanks.

Hi,

I had the same problem one week ago. You can find the solution here:
