Shoot! Good thing I haven't yet worked up the courage  
to heed my own advice. :-)

Cheers,

David

Dear Haje

that means now that the users which don't upgrade makes the (copyright)  
violation if they share programs based on those files.

Does this also mean that we can't communicate with ssl servers since 7.0.6?

cheers  
Reimar

Reimar,  
that's what I read out of that. However, I am not an expert on the subject.
