Uh, have you thought about maybe using it with ImageJ?

Cheers,

David

Yes, now I'm using imageJ manually, but this is a part of a method,
most of it with IDL. I wish to make it fully automatic.

What gives you reason to hope an ImageJ plug-in will
work in IDL?

Cheers,

David

It based on Java:

<http://bigwww.epfl.ch/thevenaz/turboreg/api/>

and I hope I can run Java from IDL. If it not possible just let me know...

I don't know if it is possible or not. I just wouldn't have thought so on the face of it. You probably know more about it than I do.

Cheers,

David
