Oh, dear. This "friend" let you go on like this
for *how* long!? :-)

Cheers,

David

P.S. Let's just say, in programming if it looks too brain-dead
to be believable, it usually is. :-)

I'm not sure I undertand what do you mean...
This code works and I only shared it, but you always have a funny
comment or something to say.
Right David?

Cheers,
llo

PD By the way, thanks for the DiscreteColorBar.

Right. Western American humor of the coyote sort. It
will take some getting used to, probably. Ben can
explain it to you later. :-)

Cheers,

David
