Subject: filling multi spectral image Posted by a.mozafari1211 on Wed, 25 Mar 2009 12:22:32 GMT View Forum Message <> Reply to Message

Hi

Folks I have one Hyperion scene (multi spectral image) with 250 bands and each band has some no datas number. I want to fill this no data for all 250 bands with the average of neighbour data. Is there any easy way to do this?

Any help highly will be appreciated.

Cheers
