Oh, never mind. I see these procedures are mixed in with all the other ENVI procedures in the alphabetical list. Maybe I'll find what I am looking for by the end of the week. :-(

Cheers,

David

David,

you should look for the function name "directly" ... for classification,
for example, don't go under envi_xyz, but class_xyz...

also, you can search the help with *doit to get the list

Jean

David,

Which version of ENVI are you using? I will follow up with your point and make sure to forward it on so that any clarity needed to improve the utility of the Help system is reviewed.

Best Regards,

Brandon
