Subject: Arithmetic Errors Windows 64-bit Object Graphics Posted by David Fanning on Fri, 11 Dec 2009 15:05:55 GMT

View Forum Message <> Reply to Message

Folks,

I had occasion this morning to run FSC_SURFACE on my new Windows 64-bit OS (IDL 7.1 and 7.1.2) and both throw NUMERIOUS floating illegal operand errors when I rotate the surface. Nothing like this happens in my old Windows 32-bit OS (IDL 7.1). Has anyone else noticed this?

The error is coming from the line that draws the object graphics view:

thisWindow -> Draw, thisView

Cheers,

David
