The IDL FAQ is posted on or about the 20th of each month.

Only the plain text version of the FAQ is posted to the news group.

Version 3.6 of the IDL FAQ is contained in the next post.

There are two changes:

- . IDL 4.0 release dates added (G04, G11).
- . New question on using IDL to make dynamic WWW images (T23)

The second item has a number of useful links (if you use the HTML version of the IDL FAQ) to items relevant to the question. Some of these links are invisible in the plain text version of the FAQ.

The HTML version of the IDL FAQ is available at:

`ftp://fermi.jhuapl.edu/www/s1r/idl/idl_faq/idl_faq.html`
