I will be moderating the round table at the end of the pre-conference day at the IDL User Group Meeting next week (more info/register at <http://bit.ly/aUYGJR>). From the registration page:

- > This will be a user moderated Open Forum Discussion, giving IDL users the
- > chance to talk about their projects and use of IDL with members of the
- > community. This is a good chance to compare techniques with other users, get
- > tips and ideas from colleagues, and ask about other items you'd like to know
- > more about.

If you cannot make it in person, but have issues/questions that you would like raised in this discussion, please reply either to this thread or to me personally.

Mike
