I found how to solve this problem

```
# log in as root
# Enter at the command line: cd /usr/local/itt/idl70/bin/bin.linux.x86
# Enter at the command line: mv gl_driver.so gl_driver.so.bak
# Enter at the command line: mv gl_driver.so.7.1 gl_driver.so.7.1.bak
# Enter at the command line: cd /usr/local/itt/idl70/bin/
bin.linux.x86_64
# Enter at the command line: mv gl_driver.so gl_driver.so.bak
# Enter at the command line: mv gl_driver.so.7.1 gl_driver.so.7.1.bak
# log out as root
# Enter at the command line: idl
```
