My goodness! This is exactly what I am talking about!
"Figures" instead of "fingers".

Can anyone recommend a good brain food. :-)

Cheers,

David

Nope, you are just a human. That's all. Nothing to complain. Do you really what to be a person which claims to NOT make any mistakes? Forget my English, but maybe you get an idea what I mean. Altruistic help should always cover any dinky typos or things which may also characterise you...

Nice weekend

A guy who is thinking that the IDL way is not only a coding style
