I'm writing a big application (GUI) and I need to provide a documentation to inform the user how to use it. I always been using online_help with success but the same call with 8.0 does not work. I get a

```
% ONLINE_HELP: Starting the IDL online help assistant
```

```
% ONLINE_HELP: Unable to obtain socker from help assistant
```

Any idea what is going on guys ?

Thanks a lot

Jean
