Subject: Experts from Cyberoam, KRAA security and others to speak @Security Conference (Aril 9th, Mumbai)
Posted by Security Mumbai on Wed, 23 Mar 2011 13:02:25 GMT

Hello,

How are you doing?

Cybercrime. Malware incidents. Data breaches. Compliance legislation. Today's changing security landscape means you can't leave anything to chance.. And new threats have kept you on your toes. What are some more of the unsettling things that need to be addressed? And how do you advance in your career?

SiliconIndia is organizing Security Conference on April 9th, 2011 in Mumbai. The Conference will address address the challenges and issues at the forefront of enterprise security. The conference brings together practitioners, professionals, and others interested in the latest advances in the security of computer systems and networks. We have 9 exciting technical sessions, delivered by Security experts.

Sessions on:

A New Security Blueprint

Insider Threat: Identifying Your Insider

Real Security for Server Virtualization

Securing the Virtual Infrastructure

The Truth is on the Wire: Event Analysis and Routine Monitoring Using Network Traffic

The Changing Face of Endpoint Security

Attacking and Defending SSL VPNs

Network Access Technology: How to Manage Your IT Infrastructure

Responding to a Wireless Attack on Your Network

Intelligent Workload Management: Addressing Security & Identity Concerns

You'll get the answers to these and many more questions at the

conference:

-What must I know about the evolving technologies of information security and
related disciplines?

-How do I become a more effective security professional?

-How do I technically secure applications, or handle security for my industry specific requirements?

-What is my career path within or outside my current company/agency?

-How can I communicate my value to the business more effectively?

Confirmed Speakers:

Abhilash Sonwane Sr. Vice President,Cyberoam

K. K. Mookhey Principal Consultant, Network Intelligence India

Anirudh Singh Rautela Security & Privacy Initiative Lead, Microsoft

Jaimon Jose Distinguished Engineer, Novell Inc
