Hi David,

Can you post your schedule here? I'd like to drop in on one of your
talks if that's possible!

The only confirmed date at the moment is the VISualize 2011
IDL User Group meeting in Washington, D.C, April 13th.
Details can be found on the ITTVIS web page. I'm trying
to put a few things together now. I'm not sure all of these
will be open to the public. But, if so, I'll be happy to
publish the schedule here.

Cheers,

David
