IDL 8.1 is available for download from the ITT VIS website. Highlights include:

- Control of graphics events in the new graphics
- File support for KML/KMZ, GRIB and video output
- Updated high resolution map data
- Image processing and analysis routine enhancements
- Code management tools for the IDL workbench

IDL licenses that are current on software maintenance are entitled to this new release.

Bill Okubo, IDL Product Manager

For more details on what's new in IDL 8.1, I'll be giving a live web seminar this Thursday, April 21, at three times: 11 am Singapore, 2 pm London and 2 pm New York. Please see

<http://www.ittvis.com/EventsTraining/LiveWebSeminars.aspx>

for sign-up information.
