Subject: max installation problem - Do you want the application lmgrd to accept incoming network connections ?
Posted by natha on Wed, 27 Apr 2011 18:32:55 GMT

Hi folks,

I installed my new license of IDL on my Macintosh laptop. When I start
the computer I always get the same pop-up with the following message:
Do you want the application lmgrd to accept incoming network
connections ?

Do you know how can I delete this message from the license manager ?
Thank you in advance,

nata
