## Subject: draw spheres in 3D space Posted by Junum on Mon, 06 Jun 2011 18:50:57 GMT View Forum Message <> Reply to Message

Hello.

I wan to know how to draw spheres in 3D space with xyz axes. For example, I have 7 spheres with radius of 1 and its center is at (0,0,0) (2,0,0) (-2,0,0)

(0,2,0)(0,-2,0)

(0,0,2)

(0,0,-1).

Since I don't have idea for 3D drawing, it is hard to start.

Could you let me know any clue, help, suggestion?

Thank you very much.

Sincerely, Jun

There was a type.

A center of last sphere should be (0,0,-2).
