
Subject: /RELAXED keyword not allowed?

Hi, All

I was reading David's tip about the backward compatibility of .sav files. And I found that the code

```
Save, File='list_hash_8.0.1.sav', /RELAXED
```

```
% Keyword RELAXED_STRUCTURE_ASSIGNMENT not allowed in call to: SAVE
```

It looks like the /RELAXED keyword is only for restore. Am I missing something?

Thanks,
Eugene
